

Beacon Rock State Park State Route 14 Entrance Road Realignment

The Washington State Parks and Recreation Commission invites you to learn more about plans to improve access on State Route 14 between mile posts 34.7 and 35 at the base of Beacon Rock State Park. The project considers several options to improve vehicular and pedestrian flow:

- 1) Realign or relocate the campground access road
- 2) Improve the Kueffler Road intersection
- 3) Provide separated parking from SR 14
- 4) Design a safe pedestrian crossing of the highway

We are asking the public to comment on options at this meeting. Participants will view individual designs at separate stations and provide written comments for State Parks.

Wednesday, June 5
6:00 pm to 8:00 p.m.

Hedgewald Auditorium
710 SW Rock Creek Drive
Stevenson, WA 98648
