

Where's the rain

Washington is known as a rainy state. But did you know that many parts of the state receive less than 20 inches of rain each year? Color the precipitation map to discover the dry and wet areas of the state.

Precipitation Map Color Coder

| Map Code | Inches of Rain | Color |
|----------|----------------|--------|
| 1 | 20 or less | Red |
| 2 | 21 to 40 | Yellow |
| 3 | 41 to 60 | Green |
| 4 | 61 or greater | Blue |

Creative challenge: Is the area of the state you live in a wet or dry part of the state? Why do you think so? _____
