FUNDING PROPOSAL – NEW OR EXPANDED for 2022-2023

NON-MOTORIZED PROGRAM

The Winter Recreation Program may consider proposals for funding for new or expanded, Priority 5 and 6, budget commitments for the 2022-2023 winter season in the non-motorized program. To apply for funding, please complete the following form. Please Note: All Proposals must be postmarked by June 1, 2021 to be considered. No late applications will be accepted. Examples of new or expanded funding requests could include: requests for grooming frequency increases, expanded or new trail systems, new Sno-Parks, trail improvements, increased enforcement, etc.

1) Please give a thorough description of the intended purpose of the proposed funding, including location, and affected Sno-Parks and trail systems.

This grant would fund a Forest Protection Officer (FPO) staff during the busiest winter recreation months at 6 Sno-Parks. Primary non-motorized snow parks include South Summit and Silver Star, but would also include a presence at 8 Mile, Goat Creek, Yellow Jacket, and Twisp River, which all include significant non-motorized use of the trails. Public contacts would focus on education related to shared use responsibilities, trail, avalanche, and safety considerations, preparedness and preventative SAR, and compliance with Sno-Park permits. Staff would also check and maintain signage, ensure information is current and well-maintained, create social media posts relevant to winter recreation and safety, provide a presence at special winter recreation events, and act as a liaison between user groups, organizations, and the Forest Service. Staff would also provide operations and maintenance support as needed for sanitation and cleanliness of the vault toilets at each of the Sno-Parks. The Forest Service would match the grant funds with patrols from the District Law Enforcement Officer (LEO). We would also provide match by providing the necessary equipment, certification and training in avalanche awareness and skills. Having an FPO to assist and accompany the LEO on patrols will expand the safety and patrol abilities of our current enforcement program.

a. Does your total request factor in the potential need for Snow Removal, Grooming, Sanitation, Education, Enforcement and possible need for dirt/land work?

Yes, this request supports existing Snow Removal and Grooming efforts by our partners, by providing for Education and Enforcement, and Sanitation services (cleaning and routine maintenance). The FS will also support sanitation by the routine pumping of the existing CXT vault toilets located at the Sno-Parks.
1) Amount of funding requested. Please give as much detail as possible and the dollar amount required for each element of the proposal. For new trail grooming requests fill out the Table A. NEW TRAIL GROOMING MILES REQUESTED FOR 2022-2023 (on the last page of this application)

$ 7,675

See attached budget sheet for details.

2) What is the estimated target audience (snowmobilers, dog mushers, cross country skiers, snowshoers, others) and what percentage do you anticipate each use at?
The target audience is backcountry and Nordic skiers (60% or more), as well as snowshoers, dog mushers and skijoring, fat biking, and winter camping (40%).

3) Why is this project essential? (New or expanded area, local economic impacts, recreational demands)

This project is essential to ensure compliance with the existing Sno-Park park regulations, including snowmobile registration and Sno-Park permits, and to ensure the safety of a growing cadre of winter recreation enthusiasts who are heading out on winter trails in increasing numbers. The Methow Valley has traditionally been known as a winter sports mecca due to the large number of miles of groomed Nordic routes. In recent years, this trend has spiked upward, and has also included a significant increase in other types of users, especially backcountry skiers and fat bikers. Local outdoor shops were early proponents of fat biking and the sport has taken off.

The Silver Star Sno-Park is a highly popular destination for backcountry skiers, and has seen an especially steep increase in use due to its relative ease of access to high elevation terrain. It is also an area that enters avalanche terrain within a short distance of leaving the trailhead, and there have been near misses and incidents with skiers in avalanche terrain. There have also been deaths. As new recreationists are attracted to the sport, the importance of providing avalanche safety and winter preparedness information has become critically important.

Also, as use has increased at Silver Star and State Route 20, non-motorized users have sought out other locations, such as Twisp River, as alternative destinations. As use expands, it is important to have staff to provide information and to monitor trends and resource impacts. Winter recreationists have expressed concern about use in avalanche zones and the need for improved education and user safety. Some areas have experienced user conflicts, and user groups have asked for improved communication and involvement by the Forest Service in this regard. Some motorized use has occurred in non-motorized Wilderness areas which has led to conflict in the past. This project would help address these needs.

Without the funds provided by this grant, the district would have no winter Recreation staff to address these needs. The District is staffed with one Law Enforcement Officer (LEO) who also covers multiple other ranger districts, and cannot provide sufficient coverage. This grant would allow us to continue to partner with the LEO for safe and effective patrols, and expand Education and Enforcement coverage in all areas, to meet the needs of the increasing winter recreation use. During the winter of 2021-2022, the grant-funded ranger also recruited and trained volunteers to assist in providing a safety partner for field activities, and to support the program. This was very successful and expanded our reach significantly.

4) Briefly describe the recreational benefits of the proposal. How will this funding improve the recreational experience of visitors? What types of recreational uses will be enhanced?
The funding will benefit the recreational user by providing improved education and information, including critical safety information related to avalanches, winter preparedness, and current conditions. Users will experience cleaner, more sanitary facilities, with sufficient toilet paper. With the first season of funding, grant funded staff helped to place new signage that included maps and better information, which visitors expressed appreciation about. This funding allows for improved enforcement, which
benefits all users as it ensures appropriate fees are returned to the site and thus helps maintain better conditions for all. Grooming partners, local outfitter and guides, and trail partners all were enthused to see the grant funded employee in the field, as all these groups benefit. Lastly, the public will benefit from improved emergency response, as the staff will continue to work with the local Search and Rescue team to ensure readiness in the case of an emergency.

5) Is the requested funding one-time only, or on-going?
   One Time □
   On-going ☑

6) Has Landowner Permission been obtained? (Funding agreements may be approved on condition that Landowner Permission will be obtained prior to the beginning of the project)
   NA - Work will occur on Forest Service lands, currently under management by the applicant.

7) If adjacent homeowners/housing developments/land owners will be impacted by the proposed action, do they support the proposal?
   NA - Work occurs on Forest Service lands that is not adjacent to or near homeowners or housing developments.

8) Describe what communications were conducted to obtain homeowners/housing developments/land owners support.
   NA

9) Are there any permitting or environmental review requirements associated with implementation of the proposal? (i.e. NEPA, SEPA, Environmental Assessment, Hydraulics Permit, Building Permit, etc.)
   No, none required for education and enforcement activities.

10) Is the funding proposal consistent with the elements of the Winter Recreation Strategic Plan (to be found at [http://parks.state.wa.us/149/Strategic-Plan](http://parks.state.wa.us/149/Strategic-Plan)) Explain how:

   Yes. This Education and Enforcement proposal is consistent with the Winter Recreation Program Vision #3 that “encourages responsible use and protection of natural and cultural resources.” It aligns with the Guiding Principles, Goals and Objectives such as providing timely, credible information and prioritizing safety. It also supports public enjoyment of outdoor winter recreation opportunities. It directly aligns with Upper Level Objective #3, which includes the goals that “Safety, education and resource stewardship are high priorities; We provide accurate and up to date information to the public; and We respond to complaints and disputes in a timely and sensitive manner. “

   This proposal also meets Plan Implementation Strategies to provide “better enforcement presence at Sno-Parks and increased on-trail enforcement.” Having an FPO in the field dedicated to reaching users where they are is key to meeting these strategic plan objectives. It will also help meet other plan objectives such as improved information on linked websites, as the grant-funded staff would be able to ensure the Forest Service website included relevant and timely educational and safety messages for winter recreationists.
This proposal also supports the longevity and financial solvency of the winter recreation program by ensuring all users are paying in to the system and supporting it.

11) Has the Area Winter Recreation Program Advisory Committee member been advised of this request?  
   Yes, Region 2 Advisory Committee member Lynn Alderson notified via email on May 3, 2022.

12) Who will be presenting this proposal at the funding meeting?  
   Forest Service staff (Rosemary Seifried or representative)

See Question 2.

A. NEW TRAIL GROOMING MILES REQUESTED FOR 2022-2023 (16 week season)
   - List the trail grooming miles planned for next season for each groomed trail system.
   - Grooming schedules will be required by October 16, 2022.

TOTAL GROOMING MILES FOR TRAIL SYSTEMS LISTED ABOVE: NA

Total funds requested for new grooming miles. $NA

Agreement

In the event funding is recommended by the Snowmobile Advisory Committee or by the Winter Recreation Advisory Committee for this project and approved by State Parks, either an existing Purchased Services Contract will be modified to reflect the approved budget, or a new Purchased Services Contract will be awarded through a public bidding process.

The applicant certifies that, to the best of his/her knowledge, the information in this application is true and correct.

Olympia, WA 98504-2650

To whom it may concern:

Methow Trails supports the US Forest Service, Methow Ranger District request for Education/Enforcement funding from WA State Parks Winter Recreation. This is important funding for the area. For the last decade, we have seen use increase each year by 10% on average each year. At this rate recreation growth is doubling every 10 years and more law enforcement and education is needed at trailheads and snow parks in Okanogan County.

Multiple user groups on the trails need more direction in order to keep our recreation respectful and responsible. Thank you for your support of this request.

Thank you for supporting this important project.

Sincerely,

James DeSalvo
Executive Director
james@methowtrails.org
Washington State Parks Winter Recreation Program  
1111 Israel Road SW  
P.O. Box 42650  
Olympia, WA 98504-2650  

To whom it may concern:  

North Cascades Mountain Guides would like to offer our support to the US Forest Service Methow Ranger District request for Education/Enforcement funding from WA State Parks Winter Recreation.  

With rapidly increasing use, this funding is critical to ensuring that recreation is safer and lower impact through education and enforcement. Having diligent and thoughtful USFS enforcement personnel is a key step in reducing user group conflict, maintaining the natural environment, and promoting responsible (and fun) recreational opportunities. We continue to be impressed by the quality of the Methow District’s outreach and educational initiatives in both summer and winter recreation and want to recognize that they have been consistently putting this funding to good use in a way that benefits all recreational users.  

Sincerely, Joshua Cole, Larry Goldie, Paul Butler and Jeff Ward  
Owners, North Cascades Mountain Guides

To whom it may concern:

Mountain Trails Grooming Association supports the US Forest Service, Methow Ranger District Request for Education/Enforcement funding from Washington State Parks Winter Recreation. This is important funding for the area. Usage has doubled in the last 10 years and more E&E is needed for the trails and Snow parks in Okanogan County.

Multiple user groups on the same trails need to recreate responsibly and increased law enforcement presence will help.

Thank you for supporting this request.

Sincerely,

Adam Osin
Manager
MTGA

Washington State Parks Winter Recreation Program
1111 Israel Road SW
P.O. Box 42650
Olympia, WA 98504-2650

To whom it may concern:

The Methow Valley Snowmobile Association supports the US Forest Service, Methow Ranger District request for Education/Enforcement funding from WA State Parks Winter Recreation. MVSA has witness positive enforcement and education last season from having a additional Winter Recreation Ranger. Since receiving funds from last year’s Winter Recreation program, the trail system has benefited in our area. Trail users from many winter recreation sports have been educated on safety guidelines for using the trails, knowing where to ride and where not too, “pay to play” saying was enforced and help with local restrooms at Snoparks was amazing. Yes, there is still a need for this funding locally this next season. MVSA does support the Methow Ranger Districts request for Education/Enforcement funding this next Season.

Thank you for supporting this important project.

Greatly Appreciated,

Craig Stahl
Methow Valley Snowmobile Association President
