

Westport Light State Park – Westport Golf LLC Proposal Comments

June 5, 2023 – July 5, 2023

This proposed golf course is a no-brainer for the community, especially from an economic perspective. Reading through the comments about a golf course adding to "climate change" makes me laugh. Trails will be maintained/improved and kept accessible. The current park as-is, is hundreds of acres of area not accessed or enjoyed by the community. ¹

I am a resident of Westport and researching on progress of this project.

I truly hope and pray it goes through.

This side of town needs a project such as this to bring in business to business owners and upkeep of the town.

This is a small town that has amazing quality business, parks, attractions. However without enough visitors the business can not only rely on the locals to survive.

This project will bring a lot of resources for Westport community.

As list some importance is jobs. Not much jobs are offered here and seafood business is seasonal.

Westport has a lot to offer and with their project, this will only help Westport to shine.

Thank you for having this great idea. ²
