

Multi-use trail open to:

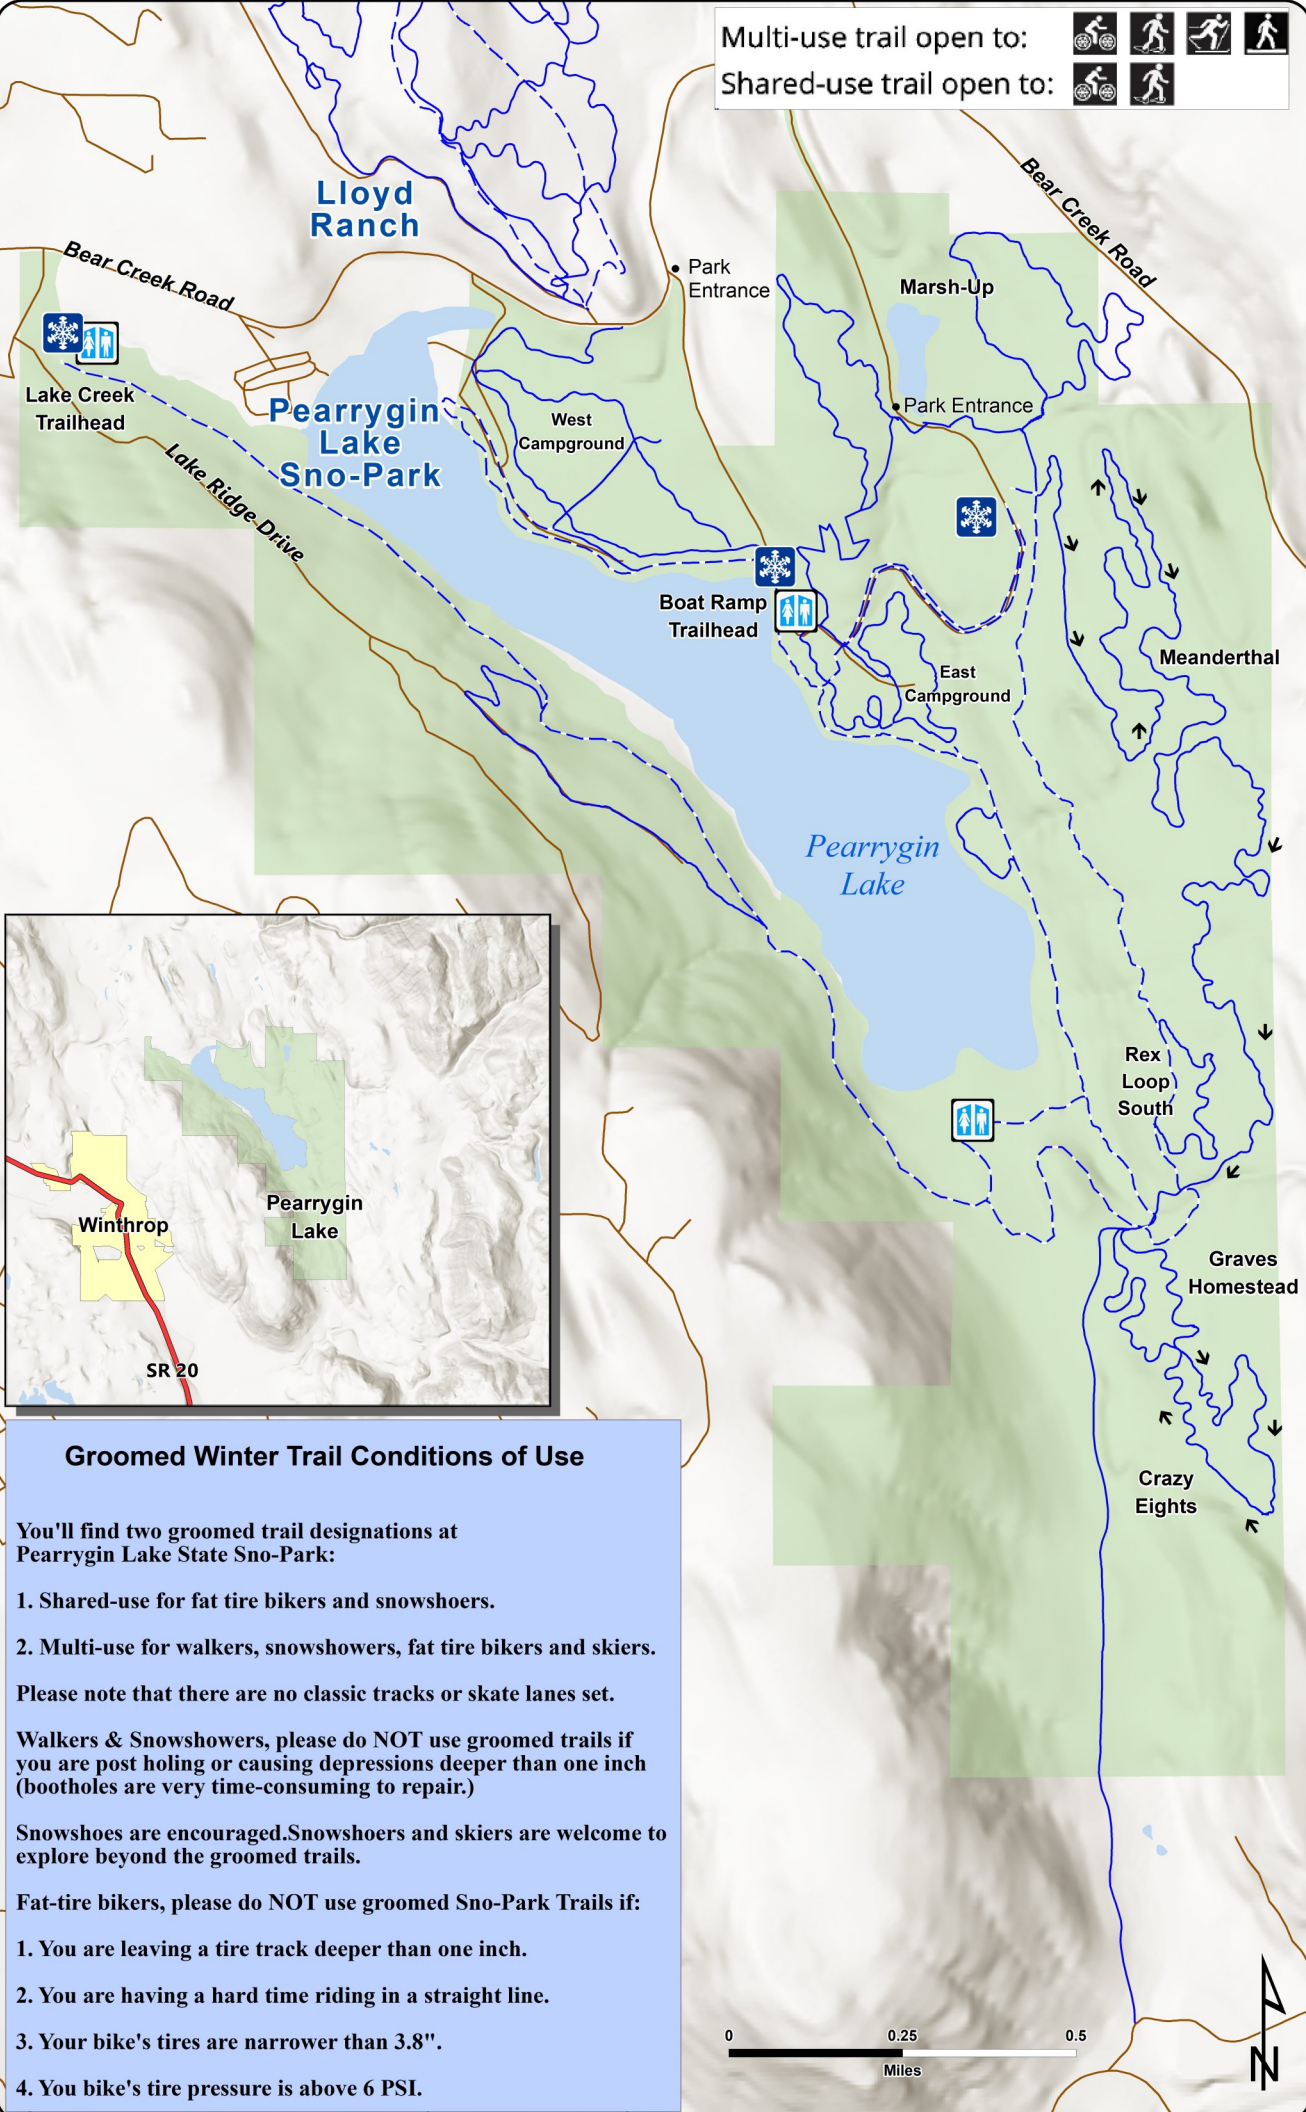

Shared-use trail open to:

Pearrygin Lake Sno-Park

Pearrygin Lake & Lloyd Ranch have 40 miles (64 km) of groomed trails.

- Parking
- Restrooms
- Multi-Use Trail
- Shared-Use Trail
- Roads
- Lakes
- State Park Boundary

PLEASE REMEMBER:

Do not walk on groomed trail. Downhill skiers have the right of way. Trails may become more difficult during icy conditions.

Snow grooming equipment may be on the trail at any time.

Trail grooming schedules may change without notice due to snow conditions, temperatures, equipment breakdowns, etc.

View trail grooming schedules and maps at parks.state.wa.us/winter
Please report errors or comments to: winter@parks.wa.gov

Trail Etiquette

The groomed winter trail system is maintained by volunteers. Trail etiquette and respecting conditions of use are essential to ensuring trail quality and enjoyment for all users.

1. Leave pets at home unless using a pet-friendly area.
2. Recreate in a single file to the right of the trail.
3. Recreate only in the direction indicated by arrow signs.
4. Obey all signs and recreate within your ability.
5. Take care not to drop wrappers or other leftovers. Do not leave pet waste bags behind. Remember--all buried litter emerges when the snow melts. Pack it in, pack it out!

Groomed Winter Trail Conditions of Use

You'll find two groomed trail designations at Pearrygin Lake State Sno-Park:

1. Shared-use for fat tire bikers and snowshoers.
2. Multi-use for walkers, snowshoers, fat tire bikers and skiers.

Please note that there are no classic tracks or skate lanes set.

Walkers & Snowshoers, please do NOT use groomed trails if you are post holing or causing depressions deeper than one inch (bootholes are very time-consuming to repair.)

Snowshoes are encouraged. Snowshoers and skiers are welcome to explore beyond the groomed trails.

Fat-tire bikers, please do NOT use groomed Sno-Park Trails if:

1. You are leaving a tire track deeper than one inch.
2. You are having a hard time riding in a straight line.
3. Your bike's tires are narrower than 3.8".
4. Your bike's tire pressure is above 6 PSI.
